Career Explorations Intro to Computer Science	<b>HS STEM Requirement:</b> Business Computer Applications Digital Citizenship Graphic Design I Intro to Programming A: Java Web Design I	English 9 World History Intro to Physics Intro to Chemistry Spanish 1A Spanish 1B Health HS Electives:

#### Recommendation:

Take an online MS course before taking an online HS course.

#### How does it work?

- MS students replace one of their elective courses at the middle school and replace it with online high school course.
- Students can take courses during summer school also to work ahead on their HS graduation requirements.
